

Pre-chewed™ Education

Licence Agreement

By purchasing your subscription to Pre-chewed™ Education resources, you agree to the following copyright licence terms:

ACCEPTABLE USE POLICY - SCHOOL PURCHASES

The 'purchasing school' refers to the individual school site that has purchased the subscription. This is understood to be the physical school site (with it's own postcode), rather than the school centre number (although in most cases these will be the same). In the case of federated academies, each physical school location is deemed an individual school for the purposes of this service. We are able to offer a different form of licence agreement for federations and this should be discussed directly.

1. Use of Products

Resources may be used by the students and teachers of the purchasing school during activities for which the school has responsibility. Resources cannot be used by staff for teaching elsewhere or by students for use in non-school (i.e. private) tutorials. Products may not be lent, sold or republished without the prior consent of Pre-chewed™ Education.

2. Copying and Backups

Copies of the resources may be shared amongst **the teachers and students of the purchasing school only**. Acceptable uses include:

OPEN SITE LICENCE

- vTextbook videos may not be downloaded to personal or school computers and are only to be accessed via the Pre-chewed Politics online log-in site.
- The printing, photocopying and filing of resource materials.
- The copying of digital files to a school-based server for sharing on a private school network.
- The copying of digital files to PCs around the school.
- The integration of digital resources with a VLE/LMS.
- The backing-up of digital files (but not the vTextbook videos) to a CD, DVD or memory stick, provided that a copy of this licence agreement remains with the copies.
- The copying of digital files to student-owned laptops. Off-site use is included, provided that all use is entirely on behalf of the purchasing school and that students have been made aware of this fact.
- The copying of digital files to teacher laptops. Off-site preparation work by teachers is allowed provided that this is entirely on behalf of the purchasing school.
- The publication of resources to a secure, password protected intranet, but not a public-accessible website.
- The emailing of digital files as attachments to a selected list of students provided that a copy of this licence agreement is also attached to the email.
